

Merck Finck Bank, Munich (Germany)

Case Study

The private bank Merck Finck & Co. was founded in 1870, and is headquartered in Munich, Germany. It has 305 employees, and has since 2012 been a subsidiary of KBL European Private Bankers, and thus owned by Holding Precision Capital in Luxembourg, who also represent the interests of private investors from Qatar.

Discretion is one of the most important features of the banking industry. Appropriately, at their Munich headquarters, an under-floor drive unit has been fitted to the heavy swing door, doing its work silently and discreetly.
