

Full-year targets confirmed

Media Release: Fehraltorf, 11 September 2014

First half-year 2014

During the first six months of 2014, the growth of margins has been negatively impacted by:

- the growth in work-in-progress
- transaction costs and restructuring expenses related to the acquired businesses
- the investment into management positions in Switzerland (marketing, export) and in the U.S. (branch organisation)
- the recent decision of the French government to postpone the last stage of the required lift modernisation (which negatively impacted PACA Ascenseurs by an estimated EUR 1 m and triggered a restructuring)

The cash outflow of EUR 15 million for acquisitions and EUR 9 million for the dividend during the first six months essentially used the cash generated in the last twelve months, resulting in a gearing of -26.6% as of 30 June 2014.

Financial debt is EUR 5 million whereas liquidity amounts to EUR 53 million.

In August, agta record acquired selected assets, liabilities and employees related to the automatic pedestrian doors business of AGP, its distributor in Australia, and established record Automated Doors (Australia).

agta record confirms the 2014 outlook of 9–11% turnover growth and an EBIT margin of approximately 11%.

The shareholder agreement has been extended until 31 December 2018.
