

Positive business trend for 2011

Media Release: Fehraltorf, 27 October 2011

Group Turnover Jan. – Sep. 2011

During the first nine months, Group turnover grew by 5.5%. Product sales rose by 5.1% and maintenance sales by 6.1%. Work-in-progress increased 50.7%.

Backlog stands at EUR 48 million and is more than 40% higher than at the start of 2011. The increase in backlog is due to both a restraint in personnel recruitment

(resulting in slight delays in order execution) and 8.2% growth in order intake.

The fourth quarter is expected to continue the trend of the first three quarters. Full-year growth of turnover is anticipated to be 5-6%.

Next media release: 2011 turnover, on 26 January 2012 (after trading).
