

2017 sales growth expectations of 4-5% confirmed

Media Release: Fehrltorf, 25 October 2017

Consolidated third quarter sales 2017

Order intake grew by 5.4% versus prior year during the first 9 months of 2017.

Assuming a stable Euro versus Swiss Franc rate, the Group is confirming full-year sales growth expectations of 4-5% despite the negative impact of the British Pound which reduced sales growth of the first 9 months by one percentage point. Profitability is anti-

cipated to increase by a higher rate than sales as a result of savings in purchasing and the first benefits from the restructuring in France.
